Get to know our Goderich Rural Program

The curriculum in Goderich is a hybrid curriculum that combines a rotation-based curriculum in PGY1 and a horizontal curriculum in PGY2. This allows residents to optimally experience being a family physician in their PGY2 year, comprehensively caring for his/her own practice while allowing for continued enrichment experiences via longitudinal electives. Faculty interests include: GP anesthesia, cardiac rehabilitation, aviation Medicine and coroner duties

[[Learn more about our Goderich Rural Program here](#) and [also here](#)]

Program Director:
Dr. Rochelle Dworkin

Get to know our Hanover Rural Program

The curriculum in Hanover is designed to prepare residents for comprehensive family practice in a rural setting. Residents are placed in the family practice for the majority of the second year to facilitate continuity of care and experience being a family physician for a group of patients.

[[Learn more about our Hanover Rural Program here](#) and [also here](#)]

Program Director:
Dr. Firas Al Dhafer
